

AMSAT QO - 100

Our Modules for QO - 100

Transmit - Mixer to 2.4 GHz "Narrowband" Input any frequency > 100 MHz @ 1 Watt, >50 mW output.

Transmit - Mixer 28 MHz to 144 MHz up to 5 W input on 28 MHz, output on 144 MHz > 50 mW and very clean. You need a LO with 13 dBm for 116 MHz, design work for a crystal LO is in progress and will be ready soon but you can use the PLL-MODULE as well!

LNB Down - Converter 1129 MHz to 430 MHz or 144 MHz (28 MHz)

The 2 modules above are without internal LO!!

PLL-MODULE for all the mixers available!

For pricing take a look at our list please, any questions, please don't hesitate to contact us.

Yes, we have stock!
